

Powerful handheld magnifiers that will show you the world

The ultra-portable explore line is designed for active people with low vision who wish to have an electronic handheld magnifier with them wherever they go. Perfect when you're at a restaurant, the library, shopping, at school or at work. Small, smart and easy to use, there's an explore device for anyone looking for more than an optical magnifier.

see things. differently.

# explorē™ 5

## Best image quality packed into a portable powerhouse

Ease of use and outstanding ergonomics make the explorē 5 the device of choice for active people looking for an electronic magnifier they can take everywhere they go. From magnifying restaurant menus to the fine print on documents, packaging and more, the explorē 5 makes life easier for anyone with vision problems.

## Ready to go, ready to help

The explorē 5 is ready to use the moment you take it out of your purse or pocket. No instructions necessary. The large, bright buttons are intuitive and simple, and its key features are designed to help in every situation:

**HD image quality:**  
Brilliant 5" LCD screen and sharp HD autofocus camera

**2X-22X magnification:** Sharpness and clarity at the touch of a button

**Customizable:** More than 18 enhancement modes

**Ergonomically superior:** The smallest, lightest 5" HD handheld electronic magnifier is designed for comfort and convenience

**3 modes of use:** Straight out of your pocket, with folding handle or tabletop use

**Long-lasting battery:** 3 hours of continuous use from a single charge

**TV output:** Display enlarged pictures and text on your TV

**Image gallery:** Can store 1000s of images for viewing anytime

**Durable:** Aluminum alloy case resists mishandling and impacts

## ALL SEEING, ALL KNOWING

A smart choice for active people with mild to medium-severe low vision who need variable magnification and contrast enhancement, the explorē 5 is designed to help them on the go, at school, at work... everywhere.

# explorē™ 8

## The Big Picture in a Small Package

The explorē 8 is a Touchscreen HD handheld magnifier for active people who prefer a large screen but still want maximum portability. It is smaller, lighter and more affordable than most 7-inch magnifiers on the market while providing a screen more than 30% larger, designed to make life easier—and a whole lot clearer.

## Lightweight device loaded with next-level features

The explorē 8 may be larger, but its small size and lightweight portability assures reading comfort and distance viewing wherever you go.

Key features include:

**Large screen:** The first 8-inch handheld magnifier on the market

**HD image quality:** Magnification up to 30X with stunning HD image quality

**Fully customizable:** Adjust contrast, color and reading mode

**Touchscreen:** Simply touch the screen to navigate easily through menus

**Twin Ultra HD cameras:** Provides reading comfort for desktop or distance viewing

**Ergonomic design:** Large buttons to adjust magnification and contrast

**TV output:** Can be connected easily to a large screen TV

**Long-lasting battery:** Provides 4.5 hours of continuous use

**IDEAL AT HOME,  
AT SCHOOL,  
AT WORK...**

The explorē 8 may be compact but it packs a powerful punch, with a large Ultra HD touchscreen for easy reading and a host of other cutting-edge features to help keep things in focus when you're on the move.
